Do the **EARTH** a favour, BE A **POWER SAVER!**

Did you know our municipality has installed Energy Efficient LED lights in our buildings!

Traditional incandescent light bulbs can cost up to 6 times more in electricity charges than energy efficient LED light bulbs. e.g. a 60W incandescent light has similar light to a 10 W LED.
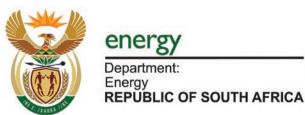

Replace traditional light bulbs in buildings with energy efficient LED light bulbs and save energy and operational costs for the Municipality. #SaveEnergy #SaveMoney

Do the **EARTH** a favour,
BE A POWER SAVER!

Save Energy. Save Money. Save the Planet!

Leaving a computer, printer and copier on standby overnight can waste as much as R1800 a year in electricity costs and adds unnecessary greenhouse gasses to the atmosphere.
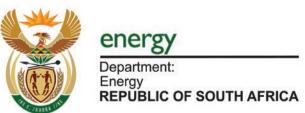

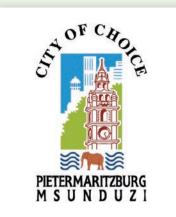

Contribute towards electricity and carbon emissions savings by switching off appliances not in use.

When it is bright, switch off the light!

Using electric lighting when there is sufficient sunlight wastes electricity and reduces productivity.

Only switch lights on when there isn't enough sunlight and always remember to switch them off when you leave the office. #SaveEnergy #SaveMoney
